

## SUPPLEMENTARY DISCLOSURE REPORTING OF FINANCIAL IMPACT OF COVID-19 AS AT 30 SEPTEMBER 2021

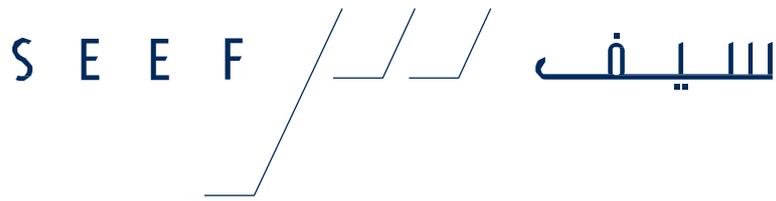

Date: 9 November 2021  
Ref: SP/PD/02-1121

The initial outbreak of COVID-19 in Bahrain in February 2020, followed by the declaration of the World Health Organisation of the COVID-19 as a global pandemic, resulted in significant global short-term and long-term implications, the full extent and scale of which remains indeterminable. Due to the unprecedented nature of the pandemic, mass official precautionary measures and directives were issued both locally and globally to combat the spread of COVID-19, including but not limited to, travel restrictions, isolation and quarantine procedures, full and/or partial cessation of certain commercial activities, enhanced disinfection procedures for public places and commercial outlets and the heralding of specific ministerial and/or government resolutions to this effect.

Seef Properties B.S.C. ("**Company**") and its subsidiaries, affiliates and joint venture companies (collectively, the "**Group**") operate within the retail, hospitality and entertainment sectors, all of which have been significantly affected by this pandemic. The Group has accordingly benefited from the commendable economic stimulus packages introduced by the Government of the Kingdom of Bahrain during 2020, which included wage support for Bahrainis in the private sector, payment of utilities (electricity and water), exemption from municipality and Labour Market Regulatory Authority (LMRA) fees, suspension of tourism levies, postponement of loan installments for individuals and businesses and targeted Tamkeen support, amongst others. The Company has also made a donation of BD 50,000 towards the national campaign for combating COVID-19 as part of its approved Corporate Social Responsibility allocations for 2020.

While the full extent of the financial impact cannot be concluded with certainty at this time due to the ongoing volatility of the situation and the market fluctuations, the following is a narrative of the key areas of impact on the Group's operations and financial performance as of 30 September 2021:

1. The Group recognised a reduction of expenses to the extent of support provided by the Government during the third quarter of 2021 in addition to the successful implementation of a transitional strategy of cost reduction across its operations.
2. The Company reported a net profit attributable to the parent of BD 3.54 million for the nine (9) months ended 30 September 2021, compared to BD 3.64 million last year, with a decrease of 2.73%. This decrease when compared to last year is mainly attributable to the following:
  - a. The reduction of Government subsidies received during this period when compared to the same period of last year.
  - b. The hospitality and entertainment sector witnessing normal operational levels for the majority of the first three (3) months of last year prior to pandemic related closures and restrictions.
3. The Group did not observe any significant impact on the value of its total assets compared to the period ended 31 December 2020.

A financial summary of the estimated COVID-19 impact on the consolidated financial statement for the period ended 30 September 2021 is as follows:

	IMPACT	AMOUNT (BD)
Revenue (retail, hospitality and entertainment)	Negative	(1,793,652)
Government Subsidy	Positive	224,640
<b>Net Impact</b>	<b>Negative</b>	<b>(1,569,012)</b>

**Note:**

This Supplementary Disclosure is issued in compliance with the Central Bank of Bahrain Circular dated 14 July 2020 (Ref: OG/259/2020) relating to the reporting of financial impact of COVID-19, and should not be construed or considered as an indication of the results for the entire year or relied upon for any other purpose. Due to the evolving and unpredictable nature of the COVID-19 pandemic, the information contained herein does not represent a precise and/or comprehensive assessment of its impact on the Group. This Supplementary Disclosure has not been subject to a formal review by the external auditors.

**Mohamed Baqi**  
Chief Financial Officer
